

# Shannon Jelenek

Associate

## **Education**

Columbia College - Bachelor of Science, Audio Engineering

## **Experience**

Over 20 years professional service in professional audio

## **Qualifications**

Initially planning to work in entertainment audio, mechanical interests lead to additional disciplines within the AV industry. Serving as a system technician for productions, building and installing performance systems for entertainment venues became a primary focus. The ability to operate and design advanced technical systems led to a path of construction, system integration and consulting. Work outside of entertainment lead to broadcast system design and installation working on the ESPN and Direct TV 'All HDTV' broadcast facilities.

## **Representative Projects**

**United Center, Chicago, IL**- Game day operations for the Chicago Bulls and Chicago Black Hawks. Including broadcast feeds and press events.

**Soundelux Showworks, Las Vegas, NV**- Operator and maintenance tech for the Las Vegas Motor Speedway. Systems tech during events.

**Hard Rock Hotel and Casino, Las Vegas, NV**- Front of House and Monitor systems engineer for the Joint, Baby's Night Club, events at the pool, and in the banquet rooms. I also took on the role of AV systems maintenance. Systems operator for most acts performing at the Hard Rock Hotel.

**Night Owl and Rhino Productions, Las Vegas, NV**- Working show call and events throughout Las Vegas.

**Audio Analyst, Colorado Spring, CO** - System Technician for both touring events as well as installed systems.

**AV Factory, Seattle, WA** - Corporate Show Audio Technician, systems tech, and stage hand.

**Triamp Productions, Seattle, WA** - Audio Technician for sound production company, providing services to local casinos and live entertainment venues.

**Maryland Live Casino, Hanover, MD** - AV design, LED signage design, low voltage system integration, owner representative/agent during build and commissioning of the project.

**Swinomish Casino, Anacortes, WA** - AV design.

**Coeur d'Alene Casino, Worley, ID** - Finish design program and install AV systems.

**Mill Bay Casino, Manson, WA** - AV design and Project manage installation. Systems programming, tuning and maintenance.

**House of Blues: Atlantic City, Atlantic City, NJ** - Project manage install, tune and open all HOB venues in AV.

**ESPN HD, CT** - On-site designer of DC1 first HD TV studio and full HD channel.

**Yesco Field, Seattle, WA** - Updated audio DSP systems
